COUNTRY Germany (Soviet Zone)

TOPIC Zerbst Airfield

DATE OF CONTENT 23 October 1950

25X1

DATE PREPARED 16 November 1950

1. [redacted] 25X1
a strip of land which bordered on the Zerbst (M 52/D 98) airfield had to be evacuated and that construction work was already in progress. [redacted] underground dumps were being established there. *
2. It was learned in Finsterwalde (N 52/A 15) that part of the construction management was transferred to Zerbst. **
- * [redacted] Comment. The information on the construction of underground dumps, received for the first time, is believed possible. The construction of a concrete runway was probably not intended since such a runway existed at the field.
- ** [redacted] Comment. Previous information indicated that the construction work at the Finsterwalde airfield was completed by 1 October 1950. Therefore, the transfer of a part of the construction management to Zerbst is believed possible.
